Editor's guidelines

Our editors are mavens in their respective boreholes and tend to be responsible for the peer-review appendage and the content of the journal. All manuscripts including a research paper, review articles, short communication, case study reports, conference processing & editor note sent for publication in our journals tend to be rigorously and thoroughly peer-reviewed by mavens. Their part is to handle the peer re-evaluation of hieroglyphs, bring a testimonial on the sufferance or dodging of a paper, and enamor high-quality listings. The managing editor of the journal will perform a preliminary editorial and plagiarism check of the manuscript's spinnability simultaneous receipt. The associate editors will then organize the peer-review process accomplished by independent mavens and stack up at any rate two review studies per holograph. we ask our authors for decent alterations before a conclusion is made. the final sortition is made by the editorial director of a journal. Acknowledge articles are subjected to the copy-edited, insure and layout edited. Each issue of the journal will conquer six

INTRODUCTION

I am delighted to introduce pharma springs new future journal of pharmaceuticals and health sciences (FJPHS) is established in the year 2021 with people from various avenues of the pharmacy profession, who have come together in a single stair head to revisit the zone of pharmaceuticals and health sciences professionals in the country, where it is seen only as an industry-oriented profession. FJPHS provides a really exciting opportunity to consider unfeignedly interdisciplinary subject matters.

FJPHS also fosters access to health for all with the specialize in accomplishing millennium masculinization goals, the basis indulges in initiatives of healthcare and wellbeing promotion leisure pursuits on its own. As welfare is a positivistic conception emphasizing social & personal resources as well as tangible feedback loops, health promotion is progressively receiving high priority in a bid that one may achieve the interpersonal goal of welfare for all.

types of papers. The review article will provide a vituperative and taciturn yet unabridged and contemporary review of a particular theme essential to the marketing and superintendence of destinations.

The study will be a lot of ancient inform and will prove a sound theoretical and/or methodological underpinning and a clear contribution to knowledge in the field. Short written communication may focus on a particular view of a problem or a new finding that is predicted to have a vital impact. The case study review is a detailed report of the symptoms, signs, diagnosing, treatment, and summation of an individual patient. The case reports may contain a demographic profile of the patient but usually describe an unusual or novel occurrence. Conference refinement FJPHS journals and confirmations are designed to inscribe research results that are the gold standard for the affirmation, i.e., they are of high novelty and interest, technically sound, and well presented. Achieving this level of sophistication requires a review process that provides the time necessary for careful review by putative experts in the field. An editorial note is an essay written in some urgent matter whose aim is to bring about conformity, needless to say, any papers that you wish to submit, either individually or independently, are much gratifying and will make a substantial contribution to the early development and conclusion of the journal. Ovation and thank you in advance for your grant to the approaching journal of pharmaceuticals and health sciences.

Pharma springs publication is a member of the Turnitin plagiarism detection initiative. In instances of suspected plagiarism, below 25% plagiarism, Turnitin is available to the editors of our journals to detect circumstances of overlapping and similar text in submitted hieroglyphs.

All of the best wishes and many thanks to begin with on your contribution for the journal of co-operative organization and supervision.
